Own it.
Play it everywhere.

Stack is the home for the records people own. It turns a shelf of vinyl and CDs into a library you can play anywhere, share with family and sell on when you're done.

Warm

Sunset colours, wood, paper and analogue texture. Never cold or techy.

Collector

Respects the object: the sleeve, the pressing, the crackle.

Playful

DJ Selector, stickers and little surprises. Fun, never childish.

Honest

Your music is free. We only charge for sharing.

02 Voice

Talk like a friend who works in a record shop.

Short sentences. Plain words. Sentence case everywhere, no spaced-out capitals, no exclamation marks in product copy.

Say this	Not this
“Your records, everywhere.”	~~“Unlock your music across all devices!”~~
“Drop the needle.”	~~“Initiate playback.”~~
“Lent to Jordan until Sunday.”	~~“Asset temporarily transferred.”~~
“Sharing it is what you pay for.”	~~“Upgrade to Premium today!!”~~

Four marks, one family.

Lockup
The main logo. Use it wherever there's room.

S mark
App icon, avatars, favicons and small spaces.

Wordmark
When the S already appears nearby.

Inverse S
Badges and patterns only. Never the main logo.

04 Clear space

Give it room to breathe.

Keep a clear space of at least **x** on every side, where x is the height of the S mark's inner swoosh, about a quarter of the mark. Nothing else enters this space.

05 Backgrounds

The right logo for every background.

Brown on light, cream on dark. On photos, place the logo over a calm area or a solid panel.

Sunset red

On a photo, put the logo on a solid panel in a calm corner, never over faces or products.

06 Misuse

Things never to do.

Don’t stretch it

Don’t recolour it

Don’t rotate it

Don’t add effects

Don’t lower contrast

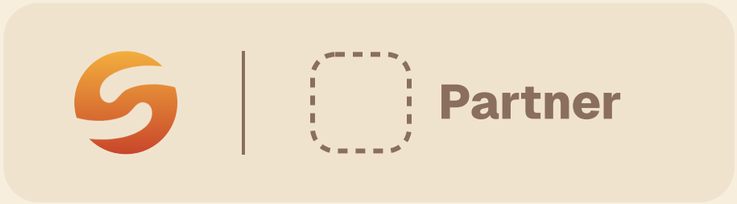

Don’t crowd it

07 Partner lock-ups

Side by side, as equals.

When Stack works with a record shop, label or event, the two logos sit on one line, matched by visual height, divided by a thin rule.

Compact: S mark with partner

- **Stack comes first** on Stack-led work: on the left, or on top when stacked.
- **Equal height.** Match the partner’s cap height to the Stack wordmark, never larger.
- **Divider:** a 2px rule in Cocoa, with 2x clear space on each side.
- **Partner-led work:** the partner leads, and Stack follows with “with Stack” or “Powered by Stack”.
- **Never** merge the marks, recolour the partner’s logo or put both inside one shape.

Meet
DJ Selector.

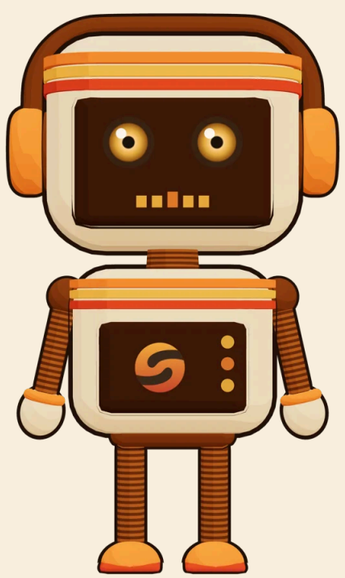

Stack’s robot DJ digs through your crate and picks the perfect record. He has headphones, a VU-meter face, a sunset headband and the S on his chest.

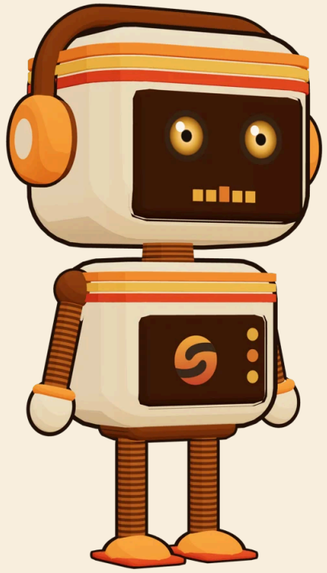

Front Three-quarter Back

The turnaround.

Always draw him from this model. Proportions are fixed: the head is wider than the body, the legs are thin coils, the shoes are orange.

Use him
like a guest star.

Do

- Use him for moments: a welcome, a pick, a tip, a celebration.
- Show him whole, feet and all, sitting on or interacting with real objects.
- Keep him smaller than the main content.
- Use one Selector per screen or page.

Don’t

- Redesign him, change his colours or add a blue headband stripe.
- Crop off his legs or squash his proportions.
- Put him on every page or behind body text.
- Distort his eyes or give him a scary expression.

Layout

4px spacing grid. 24px page margins on phones, 1120px max content width on desktop.

Buttons

Pills. One primary orange-to-red action per screen; others are tinted or ghost.

Cards

20px radius on Paper, a soft 1–3px shadow. No hard borders.

Motion

200–400ms with the Stack ease. Records spin at 33⅓. Respect reduced motion.

Copy

Sentence case. No spaced capitals. No numbering in small labels.

Accessibility

WCAG AA contrast, 44px tap targets, every image described.

Own it.
Play it everywhere.
